**Holley-Navarre Water System Field Technicians Recognized for Outstanding Service**

Navarre, FL, May 19, 2021 – Holley-Navarre Water System, Inc. initiated an Employee Recognition Program Tuesday evening by highlighting their Field Service Technicians for providing exceptional service to its members. Technicians Nick Pitman, Mike Shirah, DuJuan Vaughn, and Brent Davis (*not in attendance*) were introduced and thanked by CEO Dr. Dallas Peavey and Board President Mike Kennedy. A brief overview of the many important services Field Technicians provide to HNWS members was given.

DuJuan Vaughn was individually recognized for going above and beyond, which is reflected in the multitude of compliments recently received on the customer service he provides to members. DuJuan was presented with an award of appreciation and commended for his work ethic.

As part of HNWS's new employee relations strategy, each month a different functional area will be highlighted with one employee being selected for providing exceptional, noteworthy service. The goal of HNWS is to improve and maintain employee morale, and to foster a feeling of appreciation for our essential workers within the community.
