

Holley-Navarre Water System Hosts “Take Your Child to Work Day”

Navarre, FL, July 7, 2021 – Holley-Navarre Water System, Inc. hosted a “Take Your Child to Work Day” on June 25th, 2021. Employees were invited to bring their children to work for an inside look at how the water system runs daily. Older children were welcome to shadow employees and activities for children of all ages were held throughout the day.

A tour of HNWS facilities including the Wastewater Treatment Plant gave participants an opportunity to learn how our area wastewater is treated, and to see how important it is for the health of our community and the environment. To top it all off, a pizza party was held to give the children an opportunity to mingle with staff and member of the Internship Program.

HNWS staff successfully created a fun, educational experience their children are sure to remember!
